*The spatial plan of the museum links the past with the present. This visualization of the main entrance looks out on the plaza between the Museum building and the Monument to the Heroes of the Warsaw Ghetto. The central hall symbolically represents the parting of the Red Sea and the passage of Jews through history. The monument by Nathan Rapaport, the homage to Jewish tragedy and resistance, looks into the Museum building that enfolds a storied past and the pride of Jewish presence in Poland.*
